

Adam Van Meurs

As a soon to be Information Technology graduate with a passion for technology and a hunger to learn, I am eager to launch my career in the IT industry. While my professional experience may be limited, my academic background has equipped me with a strong foundation in programming languages, computer systems, and software development processes. I am a quick learner, an excellent problem-solver, and possess strong communication skills. I am eager to put my skills to use in a real world setting and to learn from experienced professionals in the IT industry, and to contribute to the success of your team.

Work History

**2021-02 -
Current**

Cafe Manager

Refuelled Coffee Co, Aspley, QLD

- Trained cafe employees to consistently exceed customers' expectations and provide superior service.
- Grew cafe sales by effectively marketing business and improving customer relations strategies. Went from averaging \$3,000 per week to \$7,000 since becoming manager.
- Filled in for absent employees in any position in cafe, keeping operations efficient even when short-handed. For example, my kitchen hand had recently resigned so I jumped at the challenge to prepare and serve food.
- Developed unique events and special promotions to drive sales. Have organised an event with Alternative Dairy Company Co to promote sales.

**2015-09 -
2021-02**

Bartender / Barista

Eatons Hill Hotel, Eatons Hill, QLD

- Organized bar inventory and storage procedures to keep stock within optimal levels and meet expected customer demands.
- Served high customer volumes during special events, nights, and weekends.
- Performed opening and closing duties, printing sales reports, setting up for incoming shift, preparing cash drawers and taking inventory.

Electrical Apprentice

Smart Employment Solutions, Springwood, QLD

- Evaluated and initiated repair work on various electrical equipment such as light fixtures, controls, switches, relays, and circuit breaker panels.
- Conducted detailed tests on electrical systems after completing installations, replacements, and repairs.
- Adhered to electrical and building codes when installing and repairing electrical systems or components.
- Launched troubleshooting and tests on equipment post-installation to confirm compatibility and safety of electrical systems.
- Read and interpreted electrical, mechanical, and architectural drawings and electrical code specifications for wiring layouts.
